

Free Intermediate/Advanced Lessons

The Unit-207-sponsored Lecture Series continues.

The next lecture will be at **noon on Saturday, June 4, 2016 at the BCA** . Paul Tobias' lecture will be entitled:

“Bridge Squeezes II”

This is a follow-on to Paul's February lecture. The original lecture notes are available at the Unit Website, www.austinbridge.org in the “Lessons” Menu item.

Paul will start with a review of the most common squeeze (the Simple Squeeze) and will continue with the Double Squeeze and other more advanced (but beautiful!) squeezes like the Criss-Cross and the Trump Squeeze. Many of these are rare but seeing one (and possibly even doing one!) is something you'll never forget.

Help the Lecturers out by sending your recommended topics to Hutch (hutchilc@gmail.com). They would like to know what topics could help with your game.
